

## OBSERVATIONS CALENDAR 2025-2026

Date	Day	Hour	*Observation
17th october 2025	friday	7:30 pm	Albireo
18th october 2025	saturday	7:30 pm	Albireo
24th october 2025	friday	7:30 pm	Albireo
25th october 2025	saturday	7:30 pm	Albireo
31th october 2025	friday	7:00 pm	Moon
1st november 2025	saturday	7:00 pm	Moon
7th november 2025	friday	7:00 pm	Saturn
8th november 2025	saturday	7:00 pm	Saturn
14th november 2025	friday	7:00 pm	Saturn
15th november 2025	saturday	7:00 pm	Saturn
21th november 2025	friday	7:00 pm	Saturn
22th november 2025	saturday	7:00 pm	Saturn
28th november 2025	friday	7:00 pm	Moon
29th november 2025	saturday	7:00 pm	Moon
5th december 2025	friday	7:00 pm	Saturn
6th december 2025	saturday	7:00 pm	Saturn
12th december 2025	friday	7:00 pm	Saturn
13th december 2025	saturday	7:00 pm	Saturn
19th december 2025	friday	7:00 pm	Saturn
20th december 2025	saturday	7:00 pm	Saturn
9th january 2026	friday	7:00 pm	Saturn
10th january 2026	saturday	7:00 pm	Saturn
16th january 2026	friday	7:00 pm	Saturn
17th january 2026	saturday	7:00 pm	Saturn

\*NOTE: The indicated celestial body is preferred but does not imply obligation on the part of the observatory. In case for some reason it is not could observe, the possibility of observing another star will be sought or the astronomer will explain the current function of the telescope with visual aid.

## OBSERVATIONS CALENDAR 2025-2026

Date	Day	Hour	*Observation
23th january 2026	friday	7:00 pm	Moon
24th january 2026	saturday	7:00 pm	Moon
30th january 2026	friday	7:00 pm	Moon
31th january 2026	saturday	7:00 pm	Moon
6th february 2026	friday	7:00 pm	Júpiter
7th february 2026	saturday	7:00 pm	Júpiter
13th february 2026	friday	7:00 pm	Júpiter
14th february 2026	saturday	7:00 pm	Júpiter
20th february 2026	friday	7:00 pm	Júpiter
21th february 2026	saturday	7:00 pm	Júpiter
27th february 2026	friday	7:30 pm	Moon
28th february 2026	saturday	7:30 pm	Moon
6th march 2026	friday	7:30 pm	Júpiter
7th march 2026	saturday	7:30 pm	Júpiter
13th march 2026	friday	7:30 pm	Júpiter
14th march 2026	saturday	7:30 pm	Júpiter
20th march 2026	friday	7:30 pm	Júpiter
21th march 2026	saturday	7:30 pm	Júpiter
27th march 2026	friday	7:30 pm	Moon
28th march 2026	saturday	7:30 pm	Moon
10th april 2026	friday	21:00 pm	Júpiter
11th april 2026	saturday	21:00 pm	Júpiter
17th april 2026	friday	21:00 pm	Júpiter
18th april 2026	saturday	21:00 pm	Júpiter

\*NOTE: The indicated celestial body is preferred but does not imply obligation on the part of the observatory. In case for some reason it is not could observe, the possibility of observing another star will be sought or the astronomer will explain the current function of the telescope with visual aid.

## OBSERVATIONS CALENDAR 2025-2026

Date	Day	Hour	*Observation
24th april 2026	friday	9:30 pm	Moon
25th april 2026	saturday	9:30 pm	Moon
1st may 2026	friday	9:30 pm	24 Coma
2nd may 2026	saturday	9:30 pm	24 Coma
8th may 2026	friday	9:30 pm	24 Coma
9th may 2026	saturday	9:30 pm	24 Coma
15th may 2026	friday	10:00 pm	24 Coma
16th may 2026	saturday	10:00 pm	24 Coma
22th may 2026	friday	10:00 pm	Moon
23th may 2026	saturday	10:00 pm	Moon

\*NOTE: The indicated celestial body is preferred but does not imply obligation on the part of the observatory. In case for some reason it is not could observe, the possibility of observing another star will be sought or the astronomer will explain the current function of the telescope with visual aid.
